

KRISHNAVENI B

SOFTWARE DEVELOPER

venibalamurugan62@gmail.com | linkedin.com/in/krishnaveni-balamurugan-4b9214310 | +91 86681 16132

PROFESSIONAL SUMMARY

Computer Science and Engineering student with hands-on experience in full-stack web development, cloud technologies, and Android application development. Skilled in Python, C, Java, JavaScript, SQL, HTML, and CSS, with experience in developing web applications and IoT-based systems. Seeking an entry-level software development opportunity to apply programming and problem-solving skills.

EDUCATION

B.E. Computer Science and Engineering

AAA College of Engineering and Technology | 2023–2027

CGPA: 8.23/10

TECHNICAL SKILL

Programming Languages: Python, C, Java, JavaScript

Web Technologies: HTML, CSS

Database: SQL

AI&LLM: Large Language Models

Hosting& Deployment: Vercel, Render

IoT: NodeMCU, ESP8266

INTERNSHIPS

PHOENIX SOFTECH – App Development Intern

Jan 2025 – Feb 2025

- Developed Android application components with practical exposure to UI design.
- Worked with application functionality and basic database integration.

Brainier Spot Technology – Full Stack Development Intern

Dec-2025

- Developed responsive web applications using full-stack development technologies.
- Integrated databases with web applications for efficient data management.
- Implemented user-focused web interfaces and application functionality.

PROJECTS

IoT-Based Keypad Door Lock System

- Developed a keypad-based electronic door lock system using NodeMCU, ESP8266.
- Implemented IoT-based cloud monitoring for remote access and system monitoring.
- Integrated hardware and software components to provide a secure access control system.

AI-Powered College Chatbot — Ongoing

- Developing an AI-powered chatbot to provide students with college-related information.
- Exploring Large Language Models (LLMs) for understanding and responding to user queries.
- Designing a user-friendly chatbot interface for student interaction.

Working on AI, NLP, and chatbot integration.

CERTIFICATIONS

NPTEL – Data Science Using Python | AI Constraint Satisfaction

E-Box – Problem Solving and Programming in C

Oracle – Cloud Infrastructure

IIT-AI Tools workshop
